In the Matter of

GENERAL ADJUSTMENTS IN )  
ELECTRIC AND GAS RATES )  
OF LOUISVILLE GAS AND )  
ELECTRIC COMPANY )

CASE NO.  
8284

O R D E R

On September 15, 1981, Louisville Gas and Electric Company ("Company"), by counsel, filed its Objections to and Proposed Plan for Compliance with Data Requests from Certain Intervenor. On September 21, 1981, Jefferson County and the City of Louisville filed a Response to the Objections.

The Commission, having considered the Objections, Response and being advised, is of the opinion and finds that:

1. The objection concerning the request that the Company perform certain calculations fails to state that either (a) the Company does not have the calculations or (b) the calculations cannot be readily produced, the Company should, by October 5, 1981, show, if it can, that performing the calculations requested by the Intervenor would be an unreasonable burden with respect to costs, employee hours or value of data.

2. With respect to the objection concerning the requests alleged to be too broad or alleged to refer to data or documents readily available, the Company should make a reason-

able effort to supply the information requested and, in the event it has already provided the information in another proceeding or the information is already available, the Company should, by October 5, 1981, provide a specific reference to the location of the data requested.

3. An intervenor who deems it necessary to receive a copy of a response to another intervenor's information request should make a specific request for the particular response.

IT IS THEREFORE ORDERED That Louisville Gas and Electric Company shall furnish to the Commission by October 5, 1981, reasons to support its objection to performing calculations requested by Jefferson County and the City of Louisville.

IT IS FURTHER ORDERED That Louisville Gas and Electric Company shall not be required to furnish information previously supplied provided a specific reference is stated indicating the location of the information.

IT IS FURTHER ORDERED That Louisville Gas and Electric Company shall not be required to supply copies of responses to information requests to any intervenor unless the intervenor makes a specific request for a particular response.

Done at Frankfort, Kentucky, this 29th day of September, 1981.
